The Boys Website V2

Login help

Quick Note:

All examples in this sheet will use logins for someone called John Smith with a basic password; AB123.

This is **not** a real login and is just for example.

1. ## Get your login

   You will have a Boys Website V2 login card that looks something like this:

2. ## Go to the login page

   Go to theboyswebsitev2.github.com (this web address is also written on your login card).

3. ## Type your username

   Type your username (Found on your login card, this is the first letter of your first name and then your last name (**no** spaces, **first two letters** are **capitals**)
   So for the above login card, you would type:

4. Type your password

Type your password. This is again on your login card and will consist of **two capital letters,** followed by **three numbers**.

You need to be more careful here, as the password will display as dots instead of letters and numbers, like so;

See the red circle? The password appears in dots.
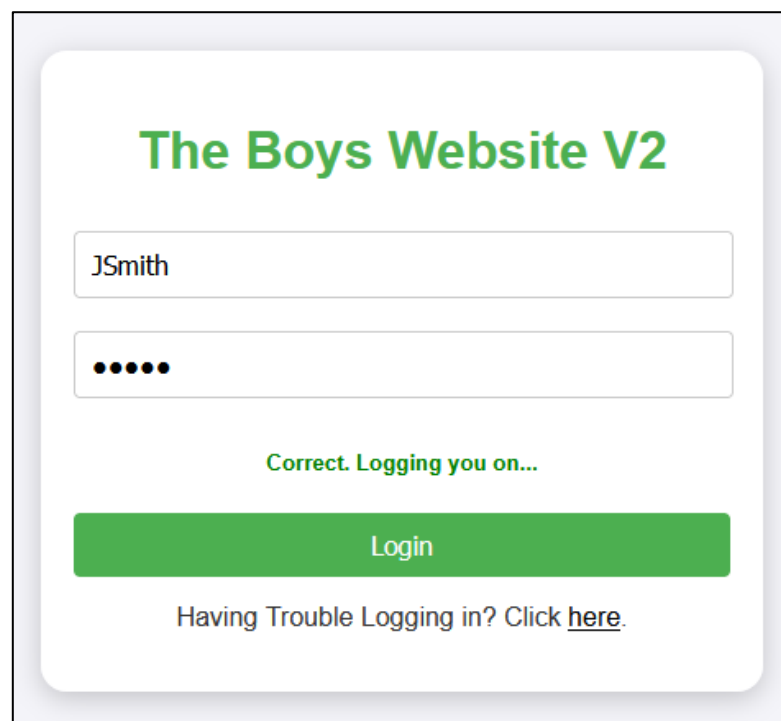

5. Log In

Now, hit login. Hopefully it should look like this then bring you to the homepage.

If you are still having trouble logging in, please click the 'ask for account check' option.
